£18,933.75

10 Years Old | Speyside Single Malt Scotch Whisky

Owned by the Inver House Distillers.

Known for its heavily peated notes.

## Why Invest in Whisky?

Whisky, being a tangible asset is a tax efficient, finite asset which offers investors double digit growth potential whilst being completely uncorrelated to traditional financial markets. In 2018, export of Scotch whisky reached a record level both in terms of size as well as value. Referring to data from HM Revenue and Customs (HMRC), the Scotch Whisky Association stated that the value of export of Scotch whisky in the previous year reached the level of £4.7 billion, which constitutes a growth by 7.8 per cent in comparison to 2017. Meanwhile, the equivalent of 1.28 billion of 0.7 litre bottles of Scotch whisky have been sent abroad, represents an annual growth of 3.6%. Whisky only ages in the cask and that is where, from an investment perspective, we see the most growth as the spirit continues to age.
